

FOR IMMEDIATE RELEASE

## **Asia's First General Day Hospital Now Ready To Welcome Guests**

### **MALO CLINIC HEALTH & WELLNESS MARKS MACAU'S FIRST STEP TOWARDS MEDICAL TOURISM**

[June 03, 2010 Macau] MALO CLINIC Health & Wellness is proud to announce its opening, with MALO CLINIC – Day Hospital, Asia's first and only general day hospital now fully operational. It is geared to welcome guests for a comprehensive array of world-class dental treatments, medical services, spa experiences and wellness programmes, in a trusted and relaxing environment. Macau, as a popular destination for its culture, leisure and entertainment, can now add wellness to its list of draws with the much-expected opening of MALO CLINIC Health & Wellness.

The facilities at MALO CLINIC Health & Wellness include MALO CLINIC – Day Hospital (measures 4,800 square-meters or 52,000 square-feet), MALO CLINIC Spa (3,900 square-meters or 41,000 square-feet). With the additions of a beauty lab and a leisure zone in the next phase, MALO CLINIC Health & Wellness will boast a total size of 12,000 square-meters (or 129,170 square-feet), set to be one of the world's largest facilities of its kind.

Owned and managed by Lisbon-based MALO CLINIC Health & Wellness Group, the extensive facility in Macau aims to offer an integrative, holistic approach to complete wellness, merging diagnostic and clinical services with spa treatments and wellness care all under one roof. "It is a brand new concept in Asia Pacific, marking the future of health and wellness", says Dr. Paulo Malo, President of MALO CLINIC Health & Wellness Group. "Our goal is to improve quality of lives through maintenance of health and prevention of illness, by delivering world-class services in a guest-centred environment. We are providing a wide range of services at highly competitive prices to rival some of the established medical facilities in the world".

Strategically located at The Venetian Macao® Resort-Hotel, MALO CLINIC Health & Wellness marks Macau's first step towards medical tourism, targeting a variety of market segments attracted to the extensive range of leisure offerings and facilities of The Venetian Macao –

from MICE visitors wanting an executive health check-up while on business, to Macau local residents and leisure travellers looking to add a health and wellness experience to their leisure activities. Also, geographically Macau is centrally located in Asia, within a 5-hour flight to most of the major cities, promising over half of the world's population an easy access to a world-class medical and wellness facility.

To ensure the highest level of credibility and confidence, all treatments are delivered by a multi-disciplinary fleet of medical experts, licensed healthcare professionals (pharmacists, lab specialists, physiotherapists, psychologists, nutritionists) and wellness therapists recruited from Asia, Europe and America. Our wellness practitioners have also received training to work side by side with the medical team to thoroughly follow every case and provide outstanding quality of services to address the individual health needs of our guests. Also, all dental professionals have undergone an intensive training programme at MALO CLINIC Education in Lisbon, Portugal.

Services in the areas of Oral Rehabilitation & Cosmetic Dentistry, Preventative & Curative Medical Care, Cosmetic Anti-ageing, Spa & Total Beauty, and Lifelong Wellness, are currently available at MALO CLINIC Health & Wellness:

## **ORAL REHABILITATION & COSMETIC DENTISTRY**

This remains one of the hallmarks of MALO CLINIC. The legacy began with the founder of MALO CLINIC Health & Wellness, Dr. Paulo Malo, a world renowned dental surgeon. Dr. Malo is credited with pioneering the revolutionary surgical All-on-4™ technique and the fixed prosthesis MALO CLINIC Bridge, both recognised as significant advances in the field of oral rehabilitation.

Exclusive to MALO CLINIC, the All-on-4™ technique allows edentulous people to have fixed teeth that look and function as natural teeth in only 30 minutes without any bone grafting, and resume normal activities on the same day. Compared to the conventional dental implant procedures, the All-on-4™ technique guarantees higher success rate, comfort level and cost effectiveness.

The dental services available at MALO CLINIC include oral surgery, oral hygiene, implantology, prosthodontics, endodontics, conservation, radiology, paediatric dentistry and teeth whitening.

## PREVENTATIVE & CURATIVE MEDICAL CARE

The cross-disciplinary team of medical doctors and licensed healthcare professionals are instrumental in designing the menu of services featuring both preventative and clinical care for the highest standards of excellence. Treatments are supported by sound medical research to ensure guests receive the best possible care and levels of service.

Our extensive clinical offerings include:

- **One-Stop Full Service Health Screenings** – Routine health screenings (basic and comprehensive), executive and anti-age medical check-up programmes cater to guests of different age and gender groups. Each programme features diagnostic procedures, dental health, medical examinations and evaluation.
- **Surgical Treatments** – General surgery; Plastic, reconstructive and aesthetic surgery; Maxillofacial surgery; Cardiology; Ophthalmology; Otolaryngology; Urology; Gynecology.
- **Specialty Medicine** – Cardiology; Ophthalmology; Paediatrics; Radiology; Gastroenterology; Dermatology; Plastic (cosmetic and reconstructive); Urology; Gynaecology; Otolaryngology; Nutrition; Psychology; Physiotherapy. Available on an out-patient basis.

With six purpose-built, state-of-the-art operating theatres, MALO CLINIC also features the most advanced medical equipment and sophisticated diagnostic technologies available to date. These include CT Scan, endoscopes, digital mammography, GE Vivid E9 Echocardiography, digital Holter recorder, Cardiac Science Quinton Q-Stress system, amongst others.

Also on offer are a laboratory to provide diagnostic and laboratory evaluations, and a pharmacy to support the clinical medical services.

## COSMETIC ANTI-AGEING

In the area of aesthetics and dermatology, the experience and professional knowledge of the surgeons and practitioners determine operational success and deliver visible results. Our experienced aestheticians, surgeons, dermatologists and nutritionists work hand in hand on the medical procedures, guest preparation, and contraindications for pre- and post- surgical treatments, to ensure visible and long-lasting results are delivered.

Featuring the latest technology and innovations, the aesthetic services and treatments available at MALO CLINIC include:

- **Anti-Age Aesthetic Treatments** - Clinical dermo-cosmetic examination; Chemical peels; Skin rejuvenation laser treatment; Permanent laser hair removal; Lesion removal; Face firming and contouring; Collagen activation therapy.
- **Cosmetic Surgery** - Chin and cheeks implants; Blephoplasty (eye lid lift surgery); Mini lifting; Rhinoplasty (nose surgery); Brachioplasty (arm lift surgery); mastopexia; Breast implants; Reduction mammoplasty; Liposculpture.

## SPA & TOTAL BEAUTY

The MALO CLINIC Spa experience is integral to the overall approach to wellness. Complementing the clinical offerings in an atmosphere of relaxation and tranquility, the spa treatments have been specially designed to pamper, enhance, revitalise and provide results-driven therapeutic solutions. For guests who have undergone treatments at MALO CLINIC, the spa experience complements rehabilitation and recovery.

For perfect styling and total beauty solutions, an array of beauty services, including manicures, hairstyling and make up, is on offer to complete the wellness experience.

The spacious spa features 58 tastefully-appointed spa rooms and suites, four dedicated hydro suites offering Vichy showers, dry floatation, hydro bath and salt floatation treatments. The heat and wet facilities, Acqua Sensations, draw inspirations from ancient Roman tradition of sequential thermal bathing, complete with hammam, experience showers, dry saunas, and vitality pools in different temperatures.

## LIFELONG WELLNESS

MALO CLINIC's Lifelong Wellness programmes have been designed to help guests achieve their optimum health and address urban syndromes, lifestyle diseases and chronic illnesses through information, education and treatment.

In individual or small group settings, information and personal guidance will be provided through one-day or weekend-long programmes. Specialists will discuss different topics about prevailing diseases and health conditions in the region, and recommend appropriate treatments integrating both clinical care and wellness services, to help guests address fundamental health concerns and establish healthy habits.

MALO CLINIC Health & Wellness is located at Shops 3013A & 3015, Level 5, Grand Canal Shoppes, The Venetian® Macao-Resort-Hotel, Macau. For booking and enquiries, please contact +853 8862 2688 or [macau@maloclinics.com](mailto:macau@maloclinics.com)

## About MALO CLINIC Health & Wellness Group

The Lisbon-based MALO CLINIC Health & Wellness Group was founded in 1995. The Group specialises in oral rehabilitation and implantology, health management, lifestyle and leisure activities. Other medical services include dermo-cosmetics, gynecology and obstetrics, nutrition, pediatrics, physical therapy, psychology, plastic surgery, urology and assisted fertilisation.

With over 12 locations around the world, MALO CLINIC Health & Wellness Group has a leading presence in Europe, North and South America, Africa and Asia. Today, MALO CLINIC is a world authority in implantology and fixed oral rehabilitation. Its educational centre, MALO CLINIC Education, is also considered one of the world's foremost organizations in health and wellbeing.

###

**Notes to Editors:**

A day hospital, by definition, is a special facility that provides services on a regular daytime basis for guests or specific client groups, where they may come for treatments during the day. Standard services provided include health assessments, rehabilitation, maintenance of functions, clinical treatments and surgical procedures.
